SUMMARY

Software Engineer at Tata Consultancy Services with hands-on experience operating large-scale cloud and enterprise systems on Microsoft Azure. Strong foundation in Java, Spring Boot, React and SQL, with working knowledge of Kubernetes, Docker and CI/CD. Experienced across backend services, full-stack web and Android products, with a focus on scalable applications, automation and AI/ML.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Backend: Spring Boot, REST APIs, Microservices

Frontend: React, Vite, Tailwind CSS

Cloud & DevOps: Microsoft Azure, Docker, Kubernetes, CI/CD, Git, Monitoring & Observability

Core: Data Structures & Algorithms, AI/ML, Agile (Scrum)

PROFESSIONAL EXPERIENCE

Tata Consultancy Services - Assistant System Engineer

Apr 2025 - Present

- Monitor and operate enterprise SAP landscapes hosted on Microsoft Azure, supporting high-availability production environments.
- Deliver data compliance solutions supporting requirements for India operations.
- Manage West Europe server infrastructure, handling day-to-day operations across regions.
- Execute backup and recovery (BAU) activities, ensuring system resilience and recoverability.
- Work hands-on with large-scale systems, monitoring, infrastructure and production environments.

Celebal Technologies - Intern

May 2023 - Aug 2023

- Developed and evaluated classical machine learning models, gaining hands-on experience working with real-world data.

PROJECTS

Kube-Guardian - Kubernetes Operations Platform

Ongoing

Kubernetes, DevOps, Observability, AIOps

- Building a modern Kubernetes operations platform focused on reliability engineering, observability and autonomous incident management.

Kiran Sudha - E-commerce Web Application

Ongoing

React, Vite, Spring Boot

- Developing a full-stack e-commerce application with a React + Vite storefront and Spring Boot backend services for catalog, cart and orders.

Hungers Cart - Food Delivery Platform

Deployed & Maintained

Android, Firebase Authentication, Google Maps API

- Built and maintain a three-app Android platform (customer, restaurant partner, delivery rider) for end-to-end food delivery.
- Integrated Google Maps API for live location, routing and delivery tracking, and Firebase Authentication for secure sign-in across all apps.

Hospital Management Service - Team Project (TCS)

Completed

Java, Spring Boot, REST APIs, Agile

- Developed a backend-focused CRUD application for appointment scheduling and payments, delivered by an Agile team.

EDUCATION

Jodhpur Institute of Engineering and Technology (JIET), Jodhpur

Graduated 2024

Bachelor of Technology (B.Tech), Computer Science
